

SUMMERLAB CAMP RETURNS FOR 2009

THIS YEAR, THE MEETING OF DIGITAL CREATORS WILL TAKE PLACE FROM AUGUST 3RD TO THE 8TH IN LABORAL CENTRO DE ARTE Y CREACIÓN INDUSTRIAL AND WILL BE COORDINATED BY HANGAR (BARCELONA).

For the second year, LABoral Centro de Arte y Creación Industrial has organised *SummerLAB Camp 2009*, a meeting of digital creators working mainly with free tools (FLOSS). Coordinated by Hangar (Barcelona), the *SummerLAB Camp* consists in a meeting of digital creators organised around work nodes of free software and hardware, discussions on creation and debates on projects related to digital creation.

Just like last year, the *SummerLAB Camp 2009* programme will be dynamic, a grid that will be structured according to how the work nodes evolve as the creators get to know one another, awakening curiosity in others' work and interacting to create and share new ideas. As usual, throughout the week during the afternoon, there will be presentations by creators who want to show their latest projects. This year, on the last day of the meeting, August 8th, a collective and open session will be held in which the results of each of the work nodes will be shown.

New to this edition is the extension of the audience to which the event is directed, including not only professionals but also school children and educators, with the goal of creating a space for becoming familiar with Digital Art.

At the same time, this year, the event has a new web page [<http://summerlab.hangar.org>] that not only will serve as a means of communication with the outside world but will be a work space for participants who have already been adding their suggestions and holding discussions on the content of *SummerLAB Camp 2009* for some weeks. The page will be updated daily so that the progress of each work node can be followed. The presentations to be given during the afternoons and the activities that are organised during the meeting will also be announced there, creating a temporary community during this gathering at LABoral.

Some of the creators and participants in *SummerLAB Camp 2009* will be: Alex Posada, Antonia Folguera, Arturo Castro, Dani Miracle, David Pello, Diego Díaz, Diego Rodríguez, Chris Sugrue, Clara Boj, Claudia Elena Ossandón, Eleonora Orregiani, Eloy Maduell, Enrike Hurtado, Gerald Kogler, GOTO10, Jay Barros, Julian Oliver, Lilia Villafuente, Lluís Carbonell, Marta Paz, Martin Kalterbrunner, Mia Makela, Miguel de Heras, Nuria Sanz, Pablo de Soto, Pablo Valbuena, Paula Pin, Santi Vilanova, Sergio Moreno Pérez, Susanna Tesconi.
